APSS 2026

Our scientific director Jean-François Gabarrou participated in the Australian Poultry Science Symposium (APSS) 2026 in Australia.

On this occasion, our expert presented his latest research findings on the use of plant extracts in poultry and their link to certain behavioral parameters.

French news!

The Salon de l'Agriculture began in Paris on February 21 and ran until March 1.

It is one of the largest agricultural events in France, bringing together professionals, researchers, farmers and the general public to discuss the agricultural sector, livestock farming, innovations, food production and environmental issues.

Optimising Carvacrol Efficacy Through Galenic Formulation

The thesis of our researcher Marion Allaoua, conducted within Phodé, highlights the value of a tailored galenic formulation of carvacrol to achieve precise intestinal targeting and improved control of Campylobacter.

Robust scientific work, now brought back into focus to showcase Phodé's expertise and know-how in galenic formulation.
